SEC. X.—COLONIAL CASTINGS AND GOODS FOR EXPORT.

SEC. XI.—STEAM ENGINES AND MACHINERY, AND CASTINGS CONNECTED THEREWITH.

SEC. XII.—TERRA COTTA AND BRICK MANUFACTURES.

SECTION II.

BRONZING.—Most of the articles in this Section are painted and bronzed, and the finish in this respect which we deem most suitable to the design, is quoted in each case; but as this may be varied if desired, and in order that the different kinds of Bronzing may be understood, a short description of each is given, viz.:

- "Statue" bronzed.—A rich brown or chocolate ground, rich gold and copper.
- "Light Statue" bronzed.—A lighter ground and a lighter gold.
- "Gold" bronzed.—Similar ground to "Light Statue" but with more gold and no copper.
- "Antique" bronzed.—A greenish-grey ground, with gold, copper, and green oxide.
- "Moresque" bronzed.—A warm drab ground, with light gold.
- "Florentine" bronzed.—A rich brown or chocolate ground, with copper only.
- "Green" bronzed.—A lively green body, with gold.

All the foregoing are "Powder" or "Paint" bronzes, and are varnished, but they are quite distinct from

"Electro" bronzed, which is an actual deposit by electricity of copper or bronze metal. The colour of this can be varied—"light" assimilating to brass, whilst "dark" becomes richer and of a coppery tone; the rougher or more polished surfaces in each case providing the light and shade.

"Illumination."—Some few of the following designs are suitable for this mode of treatment. The colours are all flat (*i.e.*, unvarnished), and the gold unburnished. The mediæval designs by Dr. DRESSER, and others, at pages 203, 207, 217, 218, 227, &c., &c., may be effectively decorated in this manner.

MARBLE TOPS.—The kind of Marble used for tops of tables may be varied at proportionate prices; the kinds deemed suitable are only quoted, but any other can be supplied to order, or the stands be sent fitted only for marble, and without the slab.

Enamelled Slate is sometimes used instead for rougher purposes.

Special quotations will be given, on application, for any large number of stands only or tables complete, with or without marble tops, for refreshment-rooms, &c.
